Amendments to the Drawings

The attached sheet of amended Fig. 1 includes a change in numbering of element 100 to 1000.

Remarks/Arguments

In the Drawings

The Examiner has objected to Fig. 1 as the proposed drawing correction filed on February 19, 2003 was not in the form of a pen and ink sketch showing changes in red ink or with changes otherwise highlighted. The Examiner indicated that the Applicants remarks in regards to the amended drawings would otherwise correct the deficiency.

Under the revised amendment practice of 37 C.F.R. 1.121, amended drawings are to be submitted without showing the changes, as requested to by the Examiner. Therefore, the Applicants are complying with such a requirement by submitting a replacement sheet of Fig.1 with copies of Figs. 2-10, as originally filed.

Having fully addressed the Examiner's objection to the Fig. 1 it is believed the amended figure overcomes the Examiner's objection. Applicants request that the Examiner remove the rejection to Fig. 1. If, however, the Examiner is of the opinion that such action cannot be taken, the Examiner is invited to contact the Applicants' attorney at (609) 734-6809, so that a mutually convenient date and time for a telephonic interview may be scheduled.

No fee is believed due. However, if a fee is due, please charge the additional fee to Deposit Account 07-0832.

Respectfully submitted,

By: Joel M. Fogelson
